

ACTIVE DVD HEADRESTS FOR BMW MERCEDES & JEEP DODGE

TWINVIEWACTIVE

Versatility HiTV Twinview Active DVD console is the most versatile aftermarket headrest technology that will suit any vehicle, including vehicle fitted with factory "Active" headrest. "Active headrest" is headrest that connects to the air bags system. In the event of accident, the airbag goes off and the headrest will also move to a forward position to prevent neck damage.

SmartFix[®] Technology SmartFix[®] is fitting technology that delivers high flexibility when the choosing the look of the DVD screen, as you have the choice to select the position of the screen as well as the distance between the DVD screen & the headrest.

Stylish HiTV Twinview Active DVD console is stylish & matches the colour of car interior
