

Z-E7015S

Car Specific Naviceiver

Compatible with PORSCHE | 911 | Boxster | Cayman

ZENEC E>GO Z-E7015S – Perfect Integration Into Your PORSCHE

The PORSCHE driving experience is unique and can surely hardly be improved. But let us help you make your journeys even more enjoyable in the future with our multimedia naviceiver Z-E7015S, a device that will navigate for you, play your music, organize your phone calls, and look after your entertainment. Developed on the basis of the PORSCHE 997 vehicle platform, the Z-E7015S in our E>GO series is a naviceiver that is the ideal addition to your vehicle, enhancing the multimedia and navigation performance for an up-to-date experience of the on-board electronic system.

ZENEC E>GO – Upgrading the future

Today, ZENEC is the market leader in the German speaking area for in-car multimedia navigation devices. And with the new product range there are E>GOs to fit into over 60 models of vehicle.

The perfect in-vehicle integration, the latest multimedia technology, mature Bluetooth and navigation functionality, together with the great ease of operation make our E>GOs so exceptional and so successful.

E>GO Z-E7015S – Tailored for your PORSCHE

Designed down to the last detail in the original PORSCHE look – from the design of the front control panel, through the white button illumination to the touch and feel of the hard keys – the Z-E7015S blends perfectly into the cockpit of different PORSCHE models. An optimal solution has been worked out specifically for the internal vehicle data communication network, to fully integrate comfort functions like the steering wheel remote control for highest convenience of device operation.

E>GO Z-E7015S – Entertainment and communication

Experience our fascinating entertainment world in your PORSCHE. Stay totally relaxed while controlling all the functions via a truly responsive touchscreen.

Enjoy music and videos in best picture and sound quality from CD, DVD, USB, iPod, iPhone, or from your smartphone. Control your USB files by the integrated Gracenote 'More Like This' feature. Receive your favorite radio stations clear and distortion and interference free by a DSP equipped FM radio.

Manage phone calls conveniently while driving thanks to the Parrot Bluetooth technology with outstanding audio and speech quality. Using the built-in speech recognition allows you to control call functions simply with your voice. Calling business partners or friends and family could hardly be easier.

E>GO Z-E7015S – Unerring navigation

Travel with the very latest navigation software stress-free throughout Europe. Current map data, High Definition 3D views, text-to-speech, TMC, integrated trip computer, Auto-Zoom, Lane Assist, Smart mode, and more than 6.5 million points of interest – the Z-E7015S does a convincing job with its wide range of functions and exact route guidance. You will rarely get to your destination so relaxed.

Features

Wireless communication via Bluetooth

The Z-E7015S is equipped with a high-tech Bluetooth module from Parrot, the specialist for mobile communications, which gives you the convenience of operating a Bluetooth-capable mobile phone. This guarantees you a wide range of functions and maximum compatibility with many different mobile phone models.

With ZENEC devices you can make phone calls in excellent quality - either using the integrated microphone or the multi-directional, freely positionable external microphone supplied with your Z-E7015S. Thanks to the innovative audio DSP, unwanted ambient sounds are filtered out more efficiently to offer improved sound clarity.

The Parrot Bluetooth module enables very easy operation while driving. The caller's number, phone book entries and other information are clearly shown on the screen. Also, if compatible, the address book of your mobile phone is automatically synchronized with the naviceiver.

The Speaker Independent Voice Recognition function, or "Voice Command", allows to control call control functions and dial phonebook contacts using voice commands (if your mobile phone supports phonebook access).

You can easily search for phone book entries - simply type in the initial letters of the contact you want to dial. This search function makes finding a specific contact quick and easy. Even special characters are no problem thanks to the multilingual keypad.

The firmware of the Bluetooth component can be conveniently updated using a USB stick if, for example, you would like to use a brand new mobile phone model. Thus, the palette of compatible mobile phones can be expanded, keeping the device up-to-date.

Bluetooth Features:

- Connection of up to 5 mobile phones
- Synchronization of up to 1,000 contacts with max. 5 telephone numbers per contact
- Voice control of phonebook contact dialling functions
- Alphabetical search function for contacts
- Multilingual input keypad, including special characters and special letters
- Quick-Dial menu for up to 6 favourite contacts
- Memory for dialled, received and missed calls
- Redialling
- Switch between hands-free and mobile phone
- BT-music streaming via A2DP with AVRCP 1.4
- Internal and external microphone
- Upgradable Bluetooth firmware.

Making calls

Use the clear Bluetooth menu to easily control all telephone functions - a touch is all it takes.

Easy connections

You can connect up to 5 mobile phones to the Z-E7015S, each having 1,000 contacts. The address book of your mobile synchronizes with the ZENEC naviceiver automatically.

Music over your mobile phone

Music stored in your mobile phone can be played back over the Z-E7015S thanks to A2DP and AVRCP 1.4. The playback is easily controlled via the touchscreen.

Voice recognition function

The Speaker Independent Voice Recognition function, or "voice command", allows you to control call functions and dial phonebook contacts using voice commands (if your mobile phone supports phonebook access).

Fast contact search

The alphabetic search function makes finding a contact easier. Simply type in the initial letters. You can search using up to 15 letters.

Quick-Dial menu

Phone numbers that you use frequently can simply be saved as favorites - so you have fast access to your most important contacts at all times.

Comfortable contact management

You can search for a contact in the phonebook or in the favourites list. But you can also display the list of dialled, received and missed calls.

No missed calls

The ZENEC Bluetooth system allows for multiple calls so that you can conveniently switch back and forth between two active telephone calls.

Your Perfect Navigator

The Z-E7015S combines up-to-date entertainment features with an innovative SD card based GPS navigation system. The ZENEC unit has the latest maps of Australia and New Zealand (with Premium POI), which appear highly realistic, thanks to the 3D high-definition rendering of terrain and 3D objects.

ZENEC's innovative navigation software makes the destination and route selection even easier and more intuitive. The "Quick Menu" provides access to all navigation functions. Fastest, easiest and shortest route calculation modes provide the user with a choice to suit personal driving habits.

The Z-E7015S naviceiver allows navigation splitscreen mode on the TFT LCD screen for all audio sources and Bluetooth. With the "Parking Around" function appropriate parking spots near you will start to show up, once you approach your final destination.

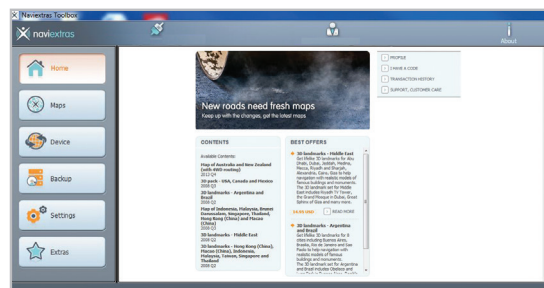

Features like the Real Junction View function, the Lane Assistant or the Auto Zoom at crossings and junctions assist orientation in more complex traffic situations. Part of the extensive feature set is the visual and audible warnings to indicate speed limits on major roads, school zones, safety cameras and high accident zones.

For best overview, a turnkey arrow screen insertion can be displayed during active route guidance for both audio playback and Bluetooth operation modes.

You can update the Z-E7015S content package, expand the navigation content with additional maps or download the newest 3D city maps anytime, using the www.zenec.naviextras.com portal.

Navigate through Australia & New Zealand the clever way
Detailed maps of Australia & New Zealand make sure you know where you are at all times.

Latest Map Guarantee

Have confidence in the navigation knowing that your Z-E7015S comes pre-installed with the latest maps available and complimentary updates for one year. Future map updates can be purchased through the Naviextras.

High-resolution 3D maps

The high-resolution WVGA display of the Z-E7015S ensures that all maps appear crystal clear. 3D orientation points and very realistic 3D city maps make navigation in big cities even more comfortable for you.

Topographic maps

Realistic 3D landscape views lead you through complex terrains. Choose between different designs for day and night. Thanks to GPS time acquisition, the Z-E7015S can also automatically switch between day and night modes.

Real Junction View

Features like the new photo-realistic Real Junction View of exit points on freeways, the Lane Assist and the Smart Zoom function at junctions and exit points facilitate orientation, particularly in complex traffic situations.

Text-to-Speech

The Z-E7015S also displays the names of crossroads. And if you wish, it will read out the street names to you, thanks to the integrated Text-to-Speech function – in this way you can concentrate fully on the traffic while driving.

Navigation Features

- SD card based 3D High Definition navigation with map data for Australia & New Zealand (on 8 GB memory card)
- Premium POI bundle
- TTS Pro voice guidance
- 2D or 3D map view with Smart Zoom and realistic display of 3D terrains and 3D landmarks
- Smart Zoom function at intersections and crossings
- Real Junction View and highway mode with Real Signpost rendering
- Tunnel mode
- Eco and Smart Route Planning
- Calculation of Real-Time Route Alternatives
- Detour Hint function
- Outlook address import
- “Where Am I?” function
- Parking Around Algorithm
- Visual and audible warning to indicate speed limits on major roads
- Trip computer: configurable display of three additional pieces of information, with the choice of arrival time, journey time, speed, direction, height above sea level, etc.
- Complimentary map updates for one year
- Map updates via the online-portal: www.zenec.naviextras.com

Reach Points Of Interest (POI) fast

The Z-E7015S has a Premium POI database with more than 750,000 entries. Using the well designed search menu makes it easy to select special destinations.

Intelligent route planning

So that you can optimize the route exactly as you want, you have a choice between various route calculation methods: short, fast and easy.

“Where Am I?” function

With the Z-E7015S you are well prepared for all emergencies: Use the “Where Am I?” function to find hospitals, police stations, ATMs, petrol stations and much more in your vicinity – all available at your fingertips.

Intelligent destination input

To select a destination, you need to enter only a few letters - the Z-E7015S completes your input and automatically proposes appropriate destinations.

Practical trip computer

The trip computer gives you a summary of the most important trip data, such as your average speed, arrival time or real travel time to destination.

Importing your Outlook contacts

Have you saved important contacts on your computer in MS Outlook? You can easily import these contacts directly into the navigation software of the Z-E7015S by using the Naviextras Toolbox.

Steering Wheel Remote Control integration

The Z-E7015S is connected via the vehicle-specific CAN bus interface to the factory installed Steering Wheel Remote Control. The multimedia functions and telephone functionality of the Steering Wheel Remote Control are supported

Perfect integration

The aesthetics are just right: The front panel of the Z-E7015S is designed in every detail of the original PORSCHE look – from the white button illumination to the haptics of the keys. Thus, the Z-E7015S integrates perfectly into the cockpit of various PORSCHE models.

MOST Bus Adapter

The Z-E7015S has a fiberglass connection (MOST bus) for connecting with a OEM BOSE sound system. The advantage of this very high quality bus system is a loss- and interference-free transmission, because the signals are transmitted as light waves.

Bluetooth – Voice recognition function

The speaker independent voice recognition function (“voice command”) of the Z-E7015S allows to control call control functions even easier and “dial” phone book contacts directly using voice commands.

Easy connections

You can connect up to five mobile phones to the ZENEC naviceiver, each having 1,000 contacts. The address book of your mobile synchronizes with the Z-E7015S automatically.

Quick-Dial menu

Making calls in the car in comfort: Phone numbers that you use frequently can simply be saved as favorites – so you have fast access to your most important contacts at all times.

Up-to-date navigation

The full Australian & New Zealand navigation package is provided on a 4 GB SD card. This runs a customized iGo Primo navigation engine and contains over 750,000 Premium POI as well as other useful add-ons. You can easily perform map updates by connecting your SD card to a Windows PC and downloading new content using Naviextras Toolbox.

All-round information

Thanks to the infobar function, you will be notified of incoming calls and/or audio features without leaving the navigation mode. In other playback modes, there is also a navigation infobar to keep you updated when to take the next turn or exit.

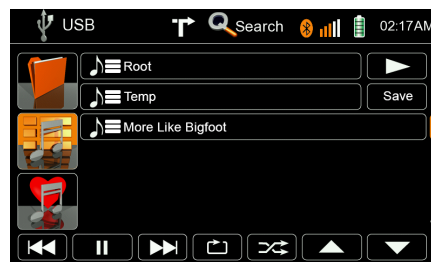

Day/night mode HMI

The E>GO offers a day/night mode HMI. Switching modes can be adjusted for in the System Settings. In addition, the device front panel is fitted with a light sensor for dynamic control of TFT brightness.

Simple connection of iPod/iPhone

Connect your iPod or iPhone to the Z-E7015S device via the USB port. The display of Apple Album Art is integrated in the iPod/iPhone menu. This menu also gives you the facility to search for a title or an artist alphabetically.

Gracenote Playlist Plus

The Gracenote “More Like This” feature stands for the “one-click” generation of style and genre based playlists in USB playback mode by pre-selecting a single song/track.

Optimized ease of use

The clearly designed menus are self-explanatory and intuitive to operate. Large control fields and a logically structured navigation ensure that the E>GO can also be controlled in safety when you are driving.

Navigation Navigate by touchscreen quickly and easily throughout Australia & New Zealand	RDS Tuner With automatic station search, 30 station memory (18 FM/12 AM) and best station memory	USB 2.0 Hub Provides connectivity for three USB 2.0 devices and one cable for iPod/iPhone connection	Camera Rear view camera input, manually or automatically activated by putting the car	iPod/iPhone iPod/iPhone direct connection and operation via touchscreen
Gracenote Playlist Plus The "More Like This" feature enables to generate style and genre based playlists in USB playback mode	Bluetooth/A2DP Integrated Parrot Bluetooth module for hands-free operation and audio streaming, upgradable firmware	A/V input A/V port (RCA) for the connection of other external A/V devices like gaming consoles, etc.	DVD player Plays CD, CD-R/RW, MP3, WMA, DVD, DVD±R/RW, DVD-MP3, AVI, Xvid and JPEG	Security code Intelligent anti-theft protection based on software monitoring of the power supply

Limitless Connectivity

Due to the integrated USB port and the various A/V in and outputs, there is almost nothing that cannot be connected to the ZENEC naviceiver. The ZENEC program has a wide selection of multimedia-based additional components that are optimally suited to the ZENEC naviceiver. All equipment – external monitors, DVB-T and DAB+ receivers or rear-view cameras – can be connected to the naviceiver and operated via touchscreen.

USB 2.0 Hub

Especially practical: There is a cable extension that can be plugged in on the E>GO's backside, to connect the USB hub that is contained in the set. The USB hub allows to connect three USB memory devices (up to 32 GB each) and the separately available iPod/iPhone interfaces ZE-NC-IPS or ZE-NC-IPS5.

Connection of iPod/iPhone

Your iPod/iPhone can be connected using your USB cable or the optional ZE-NC-IPS or ZE-NC-IPS5 (for iPhone 5). The IPS leads not only allow for quick access to all files, but also the control of audio tracks, videos or Podcasts via the naviceiver's touchscreen. It will also charge your iPod/iPhone while your car is on.

Accessories

The ZENEC product range includes many accessories that complement the Z-E7015S such as:

- Rear cameras
- DAB+ Tuner
- Rear seat entertainment
